

Graduate for Valuation and Financial Analysis

Step into a career where you're responsible for performing high-impact financial analyses and valuations for a global portfolio of renewable energy projects

The Ørsted Global Graduate Programme is designed to unleash your potential. We offer you an intense two-year developmental journey where you'll learn from experts within your field and get diverse project experience, develop transferable skills, and build a strong cross-functional network with other talents.

The graduate journey

Our Global Graduate Programme consists of three rotations, where you'll solve business challenges, take responsibility for your own assignments, and engage in our day-to-day business decisions.

You'll be part of a dedicated team of financial analysts supporting the business with financial analyses for our portfolio of projects across Europe, US, and Asia-Pacific.

You'll play an important role in:

- performing financial valuation and forecasting, while being a key contributor to sustaining and optimising the value of our project portfolio

About the job

Application deadline:

5 January 2025, 23:59 CET

Country: Poland

Location: Warsaw

Workplace: Hybrid (office and home-working)

Working hours: Full-time

Employment type: Graduate

Legal entity: Orsted Polska

About Ørsted

- We develop, construct, and operate offshore and onshore wind farms, solar energy farms, storage facilities, and bioenergy plants in Europe, Asia, and North America.
- Our vision is to create a world that runs entirely on green energy.
- We've been ranked one of the world's most sustainable energy companies for the past six years.

- preparing decision-making material for senior management and key stakeholders in the finance, commercial, and technical areas
- developing and maintaining financial models for business case valuation supporting digitalisation initiatives in Finance
- helping to quantify project risks and opportunities
- maintaining an overview of the key financial indicators for our business, ensuring the integrity of our business cases and financial commitments.

To succeed in this role, you:

- have a master's degree in finance, economics or accounting completed before 1 September 2025
- have a maximum of one year of full-time, relevant work experience between your master's completion and 1 September 2025
- possess a solid basic understanding of financial theory and valuation concepts
- have an analytical, structured, and detail-oriented mindset with a willingness to understand the underlying business case input assumptions and project specifics
- have great communication, collaboration, and interpersonal skills to ensure that complex financial matters are understood by all stakeholders
- speak and write English fluently, enabling you to present results to your business partners in a professional manner and are an experienced user of Excel and PowerPoint.

Maybe you've read the above and can see you have some transferable skills, even though they don't quite match all the points. If you think you can bring something to the team, we still encourage you to apply.

- We're headquartered in Denmark.
- We have over 8,600 employees, working in 15 countries and growing.

An inclusive team

Ørsted wants all employees to have the same opportunities for impact and growth, regardless of age, nationality, disability, ethnicity, gender, sexual orientation, or beliefs. We're committed to secure an inclusive work environment characterised by a respect for all people so everyone feels free to openly share their input and ideas.

Some of our benefits include:

Attractive parental leave package

Psychological support with free consultations with professional therapists

Private health insurance for you and your family

Access to MyBenefit Cafeteria benefit platform and MultiSport card

Join a global leader in renewable energy

Ørsted is a growing green energy major and global leader in climate action. With us you'll play a part in driving change towards a green energy future. You'll grow your talent in a fast-paced and high-growth industry where you have plenty of opportunities to learn and develop through challenging assignments and industry-leading experts. Here you can perform in a friendly work environment based on trust, respect, and collaboration.

The best first step you'll ever take

Send your application, CV, and most recent grade transcripts as soon as possible and no later than 5 January 2025. We'll conduct interviews shortly after the application deadline.

Please don't hesitate to write to graduates@orsted.com if you have any questions. If you need to request any adjustments to working practices, working patterns, or the assessment or interview process we're happy to discuss alternative arrangements.
