Software Developer Internship

About the Internship at Sollers:

Join Sollers' internship program and start your career in the IT industry!

This paid internship is not just a stepping stone; it's a launchpad for your career as a software developer. Gain hands-on experience with various technologies (Java, TypeScript, React, Spring, Jira, and many more) by joining a real project. Engage in coding, debugging, and testing software applications, while becoming proficient in modern languages and frameworks. Learn about version control, continuous integration, and agile methodologies, developing technical solutions for large-scale systems.

Our Sollers team of experienced developers is ready to answer all your questions and clarify any coding doubts. If you are a student in your final years of study, ready to launch your career in IT, join us and become a proficient Software Developer! The best-performing interns may be offered full-time positions post-internship.

About the role. You will:

• Receive comprehensive training to set up your work environment and integrate into your team, always with the support of experienced professionals.
• Work closely with your team to learn IT project workflows and contribute meaningfully from day one.
• Collaborate on tasks, develop IT solutions, and prepare necessary documentation.
• Create unit tests to ensure software quality.
• Engage in agile team activities, gaining experience in professional software development practices.

About the skills and tools. You will use:

• Java, Spring, Hibernate, Maven, TypeScript, React, Jenkins, Jira, PostgreSQL.
• Tools and practices for version control, continuous integration, and large-scale IT systems.

About the requirements. You need:

• At least basic knowledge of Java, Spring, Hibernate, and React.
• Good command of the English language, at least B2 level.
• Full-time (8 hours per day, from Monday to Friday) for 3 months (July – September 2024).
• Effective communication skills.
• Willingness to learn new technologies and solutions.

About our promises. We can offer:

• Your career boost! From day one, you will get project tasks and during the three-month internship we will support your development as #growth is one of our core values.
• Paid internship with monthly salary.

• Opportunities to work in an agile team environment.
• Hands-on experience with cutting-edge technologies and tools.
• Potential for full-time employment after the completed internship.
• Ongoing support from members of your future team who will answer all your questions and doubts and with whom you will work onsite in the same office.
 • The possibility of working from home 1 day per week and for the rest – in a modern office in the city center with many perks (ergonomic office space, chill/gaming rooms, fully equipped kitchen with cereals and fruit, and office lunches. But our biggest perk is definitely people you will meet on a daily basis).
 • Many team-building (cultural, sport, charity) and integration events.
