The goals and expected project outcomes

I. Development, improvement, and internationalization of research on transformation towards Economy 5.0

1. Extending the scope of scientific inquiry within the RID 2019-2023 initiative and delving into novel research domains about Economy 5.0
2. Organizing training programs for researchers and supportive personnel studying Economy 5.0, comprising specialized workshops and personalized methodological advisory consultations.
3. Strengthening the substantive and technical support infrastructure for Economy 5.0 research and creating an internationally recognized forum for scientific discussion on related topics.

II. Improvement of education quality across all academic levels, with a specific focus on the PUEB doctoral program

4. Improving skills, fostering integration, and engaging students within the PUEB Doctoral School.
5. Incorporating research findings on the transition to Economy 5.0 into the teaching process.

III. Increase in the PUEB research impact on the social environment

6. Dissemination of research findings on Economy 5.0 within the local and regional community
7. Improving collaboration with businesses, local authorities, non-profit organizations, and social partners.

Establishment of the Wielkopolska
Knowledge Center on Economy 5.0

From 2024 to 2026: executing actions, and in 2027: maintaining project results.
