*The programme is subject to change.

Why join?

- Explore **current economic issues** in the European context!
- **Enhance your academic English** in a truly international setting!
- Experience **Czech and EU culture** through guided excursions and expert lectures!
- **Make new friends** and grow your professional network!

Who can attend?

- The programme is open to undergraduate and master's students with a background in economics, business, public policy, or related fields from all universities worldwide.

Participants will gain:

- A **solid understanding of economic policy** and global governance.
- **Insights** into current economic **challenges** and labour market **trends**.
- **Practical skills** in data-driven decision-making and leadership.
- Experience with **interactive simulations and real-world case studies**.

Dear Students,

We are pleased that you have decided to participate in the Summer School “**Economics, Policy and Leadership in a Changing World**”, which will be held at the **Faculty of Economics, Prague University of Economics and Business**.

During the Summer School, you will **deepen your theoretical and practical knowledge** across a wide range of topics in economics and public policy, while also developing your leadership skills and strengthening your academic English.

In addition to the academic programme, we have prepared several opportunities for you to **explore the beauty of the Czech Republic**. You will take part in a **guided walk through Prague, visit the Czech National Bank, and enjoy a full-day trip to Český Krumlov**, one of the most picturesque towns in the country.

We hope that the Summer School will meet—and exceed—your expectations and provide you with both valuable knowledge and unforgettable experiences.

We are sincerely looking forward to welcoming you to Prague in August 2026!

Summer School Coordinator Ing. Barbora Růžičková, Ph.D.

Vice-Dean for International Relations
Faculty of Economics, Prague University of Economics and Business
