chairperson: dr hab. Katarzyna Pawlak-Lemańska, prof. UEP
members: dr hab. inż. Urszula Samotyja, prof. UEP
prof. dr hab. inż. Stanisław Popek, Krakow University of Economics.

Activities during a mid-term assessment:

1. A mid-term assessment is carried out in the middle of an academic term; a doctoral student may submit an application for an earlier mid-term assessment provided that the supervisor agrees to such an earlier assessment.
2. The composition of the mid-term assessment committees (hereinafter referred to as 'midterm assessment committees') is proposed by the Director of the Doctoral School and approved by the Rector of the PUEB, and then published in the form of an announcement. A mid-term assessment

committee consists of three persons, including at least one person with a post-doctoral degree (habilitated doctor) or the title of professor in the discipline in which a doctoral dissertation is being prepared, employed outside the entity running the doctoral school. The supervisor and the assistant supervisor cannot be members of the mid-term assessment committee.

3. During the mid-term assessment, the commission examines documents concerning a doctoral student's education, particularly in terms of the implementation of an individual research plan, including: a report on the implementation of the individual research plan signed by the doctoral student and assessed by the supervisor; the individual research plan with possible modifications; semester reports of the doctoral student assessed by the supervisor; a summary of grades; minutes of scientific meetings at the department/institute, where the doctoral student presented their research; confirmed participation in scientific conferences and speeches; scientific articles; chapters of the doctoral dissertation; and information on internships and received scholarships.
4. As part of the mid-term assessment, the mid-term assessment committee interviews the doctoral student. During the interview, the doctoral student presents their achievements to date (no longer than 15 minutes), and then the committee discusses the doctoral dissertation being prepared and the implementation of the individual research plan. Notification of the date of the interview with the doctoral student is sent to the doctoral student by registered mail and to the university e-mail address at least 21 days before the interview; the notification sent to the address indicated by the doctoral student for correspondence is considered to be effectively delivered within 14 days of sending it, even if it has not been collected or has been returned with the annotation 'unknown addressee', 'addressee moved out' or the like.

Principles of the work of the mid-term assessment committee:

- 1) decisions of the committees are made in the form of resolutions, openly and by a simple majority of votes; in the event of an equal number of votes 'for' and 'against', the casting vote is that of the chairman of the committee;
- 2) the meeting of the mid-term assessment committee may take place outside the seat of the PUEB using electronic means of communication that meet the requirements of applicable regulations;
- 3) a report is drawn up of the meeting of the mid-term assessment committee;
- 4) resolutions adopted by the mid-term assessment committee by means of electronic communication are signed by the chairman of the committee; the chairman also signs the minutes and other documents produced by the mid-term assessment committee by electronic means of communication;
- 5) the result of the assessment with justification is public; the doctoral student is notified of the result of the mid-term assessment in writing by a registered mail;
- 6) in the event of a negative result of the mid-term assessment, the doctoral student shall be removed from the list of doctoral students.

RECTOR

(prof. dr hab. Barbara Jankowska)
